

## Fan the fish!

Playing games with your child is an easy and excellent way to have fun together. They can practise hand-eye coordination while playing this game.

### What you need:

- A few pieces of paper (for the fish)
- Old newspapers
- Scissors
- A clean floor space

### What to do:

Cut out a large fish shape and decorate it. Fold up the newspaper. Decide on a start and finish line. Show your child how to move the fish by flapping the paper behind it. Let your child start the race by saying “ready, steady, go!” Enjoy having races with each other. Try using different objects.

### Questions to ask.....

- Who won?
- Which is the easiest object to fan?
- Why can't you fan a 'spoon'?

**Have fun together!**
