

## **Building a secret den!**

Dens offer a safe and cosy place for imaginative play and provide lots of fabulous opportunities for communication and language.

### **What you need:**

- Some large pieces of materials e.g. duvet cover, towels, a sari
- String and pegs
- Clothes dryer or a table
- Cushions

### **What to do:**

Help your child find a space to build a den. Under the kitchen table, clothes dryer or behind the sofa are good places. Construct the den together and make it cosy with cushions. Find a range of things that could be taken into the den, e.g. books, a torch, favourite toys etc.

Have fun in the den together!

**Can you see who is hiding in the den in my house?**
