

## Maths

1. What is this shape called?

2. How many sides does it have? How many corners does it have?  
Show that number using your fingers and your numeral flashcard.

3. What about this shape?

4. Can you try and draw a square and rectangle?

A square has 4 sides that are all the same. A rectangle also has 4 sides, but it can have 2 long sides and 2 short sides.

5. Go on a shape hunt around your house and see if you can find any squares and rectangles!
