

## Indoor Treasure Hunt

Children love searching for hidden toys and hiding things too!

### What you need:

- A few different size toys

### What to do:

Ask your child to close their eyes and count to 20. Hide a toy somewhere in your home. Ask your child to open their eyes and go and find it. Give them some clues e.g. it is in the room you have a bath in, it is behind or under something. As they get closer, you could use words like 'warmer and colder' to help them find it. Take it in turns to hide a toy around your home.

### Questions to ask.....

- Where do you think your toy is hiding?
- Can you see part of their body?
- Are they hidden on top of something?

### What is hiding under my sofa?
